§ 784.109

and fortified or refined fish oil is not within these exemptions.

§ 784.109 Manufacture of supplies for named operations is not exempt.

Employment in the manufacture of supplies for the named operations is not employment in the named operations on aquatic forms of life. Thus, the exemption is not applicable to the manufacture of boxes, barrels, or ice by a seafood processor for packing or shipping its seafood products or for use of the ice in its fishing vessels. These operations, when performed by an independent manufacturer, would likewise not be exempt (*Dize v. Maddix*, 144 F. 284 (C.A. 4), affirmed 324 U.S. 667, and approved on this point in *Farmers' Reservoir Co. v. McComb*, 337 U.S. 755).

§ 784.110 Performing operations both on nonaquatic products and named aquatic products.

By their terms, sections 13(a)(5) and 13(b)(4) provide no exemption with respect to operations performed on any products other than the aquatic products named in these subsections (see §784.107). Accordingly, neither of the exemptions is applicable to the making of any commodities from ingredients only part of which consist of such aquatic products, if a substantial amount of other products is contained in the commodity so produced (compare Walling v. Bridgeman-Russell Co., 6 Labor Cases 61, 422, 2 WH Cases 785 (D. Minn.) and Miller v. Litchfield Creamery Co., 11 Labor Cases 63, 274, 5 WH Cases 1039 (N.D. Ind.), with Mitchell v. Trade Winds, Inc., 289 F. 2d 278). Thus, the first processing, canning, or processing of codfish cakes, clam chowder, dog food, crab cakes, or livestock food containing aquatic products is often not exempt within the meaning of the relevant exemptions.

§784.111 Operations on named products with substantial amounts of other ingredients are not exempt.

To exempt employees employed in first processing, canning, or processing products composed of the named commodities and a substantial amount of ingredients not named in the exemptions would be contrary to the language and purposes of such exemptions

which specifically enumerate the commodities on which exempt operations were intended to be performed. Consequently, in such situations all operations performed on the mixed products at and from the time of the addition of the foreign ingredients, including those activities which are an integral part of first processing, canning, or processing are nonexempt activities. However, activities performed in connection with such operations on the named aquatic products prior to the addition of the foreign ingredients are deemed exempt operations under the applicable exemption. Where the commodity produced from named aquatic products contains an insubstantial amount of products not named in the exemption, the operations will be considered as performed on the aquatic products and handling and preparation of the foreign ingredients for use in the exempt operations will also be considered as exempt activities.

§ 784.112 Substantial amounts of nonaquatic products; enforcement policy.

As an enforcement policy in applying the principles stated in §§ 784.110 and 784.111, if more than 20 percent of a commodity consists of products other than aquatic products named in section 13(a)(5) or 13(b)(4), the commodity will be deemed to contain a substantial amount of such nonaquatic products.

§784.113 Work related to named operations performed in off- or deadseason.

Generally, during the dead or inactive season when operations named in section 13(a)(5) or 13(b)(4) are not being performed on the specified aquatic forms of life, employees performing work relating to the plant or equipment which is used in such operations during the active seasons are not exempt. Illustrative of such employees are those who repair, overhaul, or recondition fishing equipment or processing or canning equipment and machinery during the off-season periods when fishing, processing, or canning is not going on. An exemption provided for employees employed "in" specified operations is plainly not intended to apply to employees employed in other
